📍 Egypt

---

## ABOUT ME

Experienced front-end developer with 5 years of working with various companies in Egypt and GCC. Skilled in JavaScript fundamentals and open-source collaboration

---

## EDUCATION

A verified certificate of completion of the front- end track from Udacity

---

## WORK EXPERIENCE

### Front End @Wilow | Dec 2024 - Present

Willow is a smart laundry platform. I am responsible for building and maintaining four separate web applications: a Wing app for managing laundry stages, a Flock app for receiving and delivering customer orders, an Admin Dashboard, and the Landing Page.

### Front End @Murabba | Dec 2022 - 2024

At Murabba, I designed and developed multiple websites, including Erad.com, Drones, and Pharmacy, and mentored junior front-end developers.

### Front End@Bannan | Dec 2020 - Dec 2022

I was responsible for designing and developing the Go Manasat real estate platform in Saudi Arabia , along with customizing and maintaining several WordPress websites.

---
